

ENERPAC 

Portable Electric Pumps

NEW !!

ENERPAC[®]
INDUSTRIAL TOOLS

Heavy on Performance, Light on Weight

These new Enerpac lightweight Economy Electric Pumps offer greater control of single-acting cylinders by providing advance-hold-retract valve functions with a remote pendant.

Portable Economy Electric Pumps

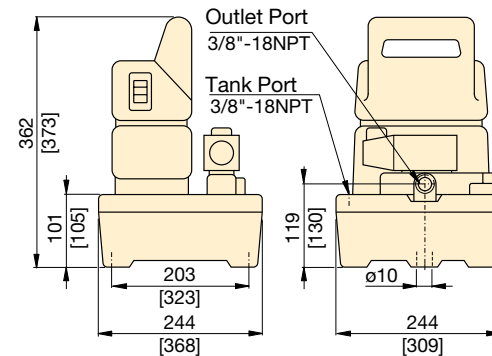

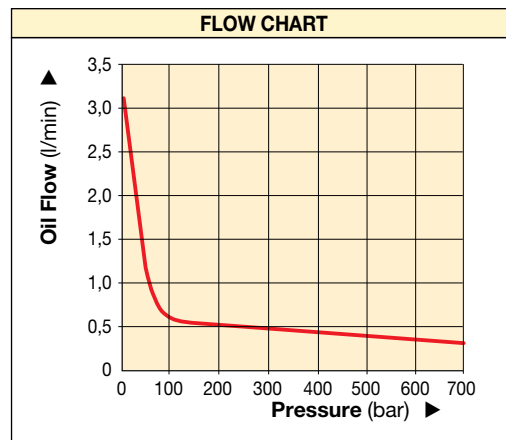

▼ PUD-1300E

Direct-acting Poppet Valve

Two-position, direct-acting poppet valve provides advance/hold/retract control of single-acting cylinders. Ideal for use on presses and hydraulic tools that normally require a "hold" position for alignment and positional control.

- Light weight and compact design: 12 to 17,5 kg
- Large easy-carry handle for maximum portability
- Two-speed operation reduces cycle times for improved productivity
- Solenoid 3/2 valve for advance/hold/retract of single-acting cylinders
- 230 VAC 50/60-cycle universal motor will operate on voltages as low as 115 volts
- 24 VDC remote motor control, 3 m length for operator safety
- Starts under full load
- Designed for intermittent duty cycle
- High strength molded shroud, with integral handle, protects motor from contamination and damage

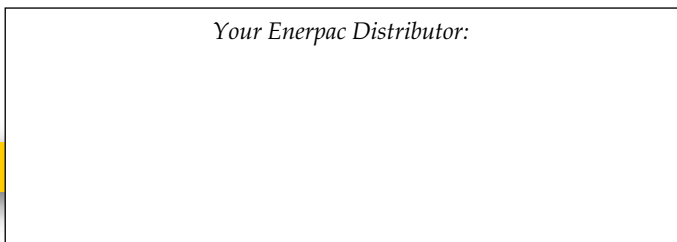

Pump Type (used with cylinder)	Usable Oil Capacity (litres)	Model Number*	Pressure Rating (bar)		Output Flow Rate (litres)		Valve Type	Current Draw (Amps)	Motor Voltage (VAC)	Weight (kg)
			1 st stage	2 nd stage	1 st stage	2 nd stage				
Single-Acting	1,9	PUD-1300E	13	700	3,31	0,32	Solenoid 3/2	3,2	230	12,0
	3,8	PUD-1301E	13	700	3,31	0,32				

* For 115 volt applications replace 'E' suffix with 'B'.

Sound level 85 dBA
